### IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER FAILURE TO MONITOR

**ESTE INFORME CONTIENE INFORMACIÓN IMPORTANTE ACERCA DE SU AGUA POTABLE. HAGA QUE  
ALGUIEN LO TRADUZCA PARA USTED, O HABLE CON ALGUIEN QUE LO ENTIENDA.**

#### Monitoring Requirements Not Met for Bloomfield Borough Water Authority

Our water system violated several drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2021 we failed to monitor for the following contaminants and therefore cannot be sure of the quality of our drinking water during that time.*

#### What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, the required sampling frequency, how many samples we took, when samples should have been taken, and the date on which corrective action samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were or will be taken
VOC	Quarterly	none	4 <sup>th</sup> Quarter 2021	1 <sup>st</sup> Quarter 2022
SOC	Quarterly	none	4 <sup>th</sup> Quarter 2021	1 <sup>st</sup> Quarter 2022
RAD	Quarterly	none	4 <sup>th</sup> Quarter 2021	1 <sup>st</sup> Quarter 2022

#### What happened? What was done? When will it be resolved?

misread monitoring calendar and missed sampling 4<sup>th</sup> quarter of 2021, sampling was done in 1<sup>st</sup> quarter of 2022 once we were notified of the violation. It was resolved in the 1<sup>st</sup> quarter of 2022.
