

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

ESTE INFORME CONTIENE INFORMACIÓN IMPORTANTE ACERCA DE SU AGUA POTABLE. HAGA QUE ALGUIEN LO TRADUZCA PARA USTED, O HABLE CON ALGUIEN QUE LO ENTIENDA.

### Monitoring Requirements Not Met for November of 2014, February, May, and August of 2015.

Our water system violated several drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2014/2015 we did not monitor on the correct dates, the monitoring was done at later dates and therefore cannot be sure of the quality of our drinking water during that time.*

### What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for Raw water TOC, TTHM and HAA5 \_\_\_\_\_ and how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were or will be taken
Raw water TOC, Treated water TOC, Raw water Alkalinity	One sample per plant per month	0 for old plant, 1 for new plant	November 2014	n/a
TTHM, HAA5	2 samples per quarter	1	August 10 through August 16, 2015	November 10 through November 16, 2015
TTHM, HAA5	1 per quarter	0	February 2015	May 2015
TTHM, HAA5	Quarterly	1	May 10- May 16	May 19

### What happened? What was done?
