RE: **State Notice of Violation**
Missing Chlor Residuals for 4-log Determination
Due to MOR Not Submitted or Incomplete

PWSID: WV3303902
PRESTON COUNTY

Dear Owner or Operator:

In accordance with West Virginia Water System Regulation § 64-3-10 and Federal Safe Drinking Water Regulation 40CFR141.403(b)(3), you are receiving this violation for a missing required treatment plant Chlorine Residual associated with 4-log virus treatment due to not providing this office with a complete and accurate Monthly Operational Report (MOR) between 10/1/2021 and 10/31/2021.

Since your system is being issued this violation, you are required to provide public notification within one (1) year after you become aware of the violation to persons served by your water system. Attached is the public notice format and certification form for your use. Failure to complete the public notification within the given time period will result in a public notice violation.

In order to return to compliance, the correct number of required daily treatment plant chlorine residuals shall be taken and received by this office by the tenth (10th) of the following month, on the required MOR form. If compliance is not achieved, further violations shall be issued and escalating enforcement actions shall be taken up to and including an Administrative Order with a monetary penalty.

The following details describe the violation and can be used in future reference to this matter:

Drinking Water Violation

Analyte Name	CHLORINE
Violation Type Code	31, MONITORING, RTN/RPT MAJOR (GWR)
Violation Number	2022--34807
Validation Date	12/15/2021
Monitoring Period	10/1/2021 to 10/31/2021

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

ARTHURDALE WATER ASSOC., WV3303902

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 10/1/2021 and 10/31/2021, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
31, MONITORING, RTN/RPT MAJOR (GWR) CHLORINE Missing CI Residuals for 4-log Determination Due to MOR Not Submitted Incomplete	10/1/2021 to 10/31/2021

What happened? What is being done? (Describe corrective action)

During the month of October the Monthly Operational Report was not filled out correctly. A Monthly Operational Report was submitted for October, but it was incomplete. Corrections have been made to ensure this doesn't happen again.

For more information, please contact Alan Westfall at 304-269-0072
(Contact name) (Phone number)
Or 160 John St, Weston, WV 26452
(Mailing address)

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
